displays number patterns and graphs linear relationships on the
Cartesian plane.

CHAPTER

9

Homework. Part 1 is **drill practice**: quick questions on the main skill of each lesson in Chapter 9. Write each answer on its line. Part 2 is **mixed revision**, from **Easy** to **Challenging**. Each question is tagged with its lesson, so you can look back at that lesson's summary if you get stuck.

YOU DO On your own: Part 1, drill practice.
